BUSINESS IMPROVING

Such is the Present State of Trade.

R. G. DUN & COMPANY'S REPORT.

A Constant Complaint That the Improvement Is Slow, Still It Is a Healthy One and Better Times Can Soon Be Expected—Great Encouragement During the Past Week.

NEW YORK, Nov. 18.—R. G. Dun & Company's weekly review of trade says: Business is gaining, but it is a constant complaint that the improvement is slow. This is because very few realize how heavy a load business has to drag after it in climbing up again. Legislative uncertainties weigh heavily, but other loads many overlook.

The past depression with trading and manufacturing caused failures involving more than \$235,000,000 in nine months; besides banking failures of enormous liabilities and failures of railway and other corporations having heavy indebtedness to individuals and firms, involve continual embarrassments which men are prone to forget. There has been great encouragement during the past week in the fact that November payments are far more satisfactory than was feared, and yet the extensions of the month would have seemed alarming other years.

Merchants who collect part of the amount due are rejoiced, but their buying power is not as large as usual. The extraordinary shrinkage in purchases for consumption, if lessening, has still made it impossible for many firms to go as before, and the largest failure of the past week, that of the Thurber-Whyland Company, illustrates embarrassments which can not be terminated in a week or month.

Monetary difficulties no longer hinder. It is true the treasury cash has fallen to \$97,389,595 of which only \$85,490,891 was gold, but there is no such alarm as there was when the gold reserve alone went below \$100,000,000. Business is not leaning on the treasury, and it is well that it is not. Receipts for the month thus far are about \$5,000,000 less than expenses and the imports in October decreased about \$20,000,000, partly because of inflated valuation of goods imported last year.

Weekly imports at New York decrease, in part from the same cause.

The condition of industries improves but they wisely wait the revival of purchases of consumers. Twenty-four works of all kinds have wholly or in part resumed, against 14 closing. Yet less than half the iron working power is active, and out of 99 woollens works at the east only 10 are working full time, while 45 were shut Nov. 1, the production for four months in men's woollens being 14,343,431 yards against 25,554,306 last year. State factory inspectors report that out of 90,000 persons employed in textile mills in Philadelphia only 17,500 are at work.

In boots and shoes there is also decided improvement in spite of the fact that orders are smaller than usual, and most factories are receiving orders, though not enough for full employment. Shipments from Boston for the week were only 5 per cent less than a year ago.

The decrease in the volume of business through the clearinghouse continues about the same, and for the past week was 18.6 per cent.

The failures for the week have been 324 in the United States against 205 last year and 36 in Canada against 35 last year. Besides one bank in Ohio and the Thurber failure there were four of liabilities over \$100,000 and 68 others over \$5,000. The volumes of indebtedness of firms failing in previous week was \$3,727,467, against \$3,467,340 the week before, being larger east than south.

BURGLARS ARRESTED.

Part of the Stolen Property Recovered—A Confession.

TERRE HAUTE, Ind., Nov. 18.—William Vansell and William Brown, who burglarized the store of N. G. Penwell at Pana, Ills., Wednesday night, were arrested by the police of this city yesterday and a part of the stolen property recovered. After robbing the store the thieves walked and carried their booty to Tower Hill, a distance of eight miles, from which place they shipped it by express to this city. The goods were found at a private boardinghouse here and the men were arrested while in a saloon playing cards.

When placed under arrest Vansell weakened and told the whole story. Vansell is the son of a well-to-do farmer living north of the city, but is a natural born thief. He was sent from this city to the reform school in 1883 for robbing freight cars and in 1888 was convicted of robbing a man in this city and sentenced to the Jeffersonville penitentiary for three years. After serving a year he was pardoned and joined the regular army. He deserted, and last January surrendered to the authorities in this city. He was turned over to the United States officers and at a court martial was sentenced to six months in the guardhouse, having been released and discharged last August.

Glass Factories Starting Up.

BRIDGEPORT, O., Nov. 18.—The glass factories in this county, employing about 1,000 men, have withdrawn from the combine and will resume work the first of next week. Fires have already been started in them.

Death of a Priest.

MINNEAPOLIS, Nov. 18.—Rev. Father Felix Tissot, who has been in the priesthood of Minnesota since 1857, died in this city yesterday evening, aged 60 years. He was a native of France.

REBELLION IN CUBA.

It is at an End as the Insurgents Have Surrendered.

NEW YORK, Nov. 18.—General Jose Marti, representative of the Independent party of Cuba in the United States, has received a dispatch to the effect that the Cuban rebellion is at an end and that the insurgents have surrendered. He said he was in possession of full information in regard to the rebellion, but he could not make it public. He made the following statement, however:

"The Republican Populist revolutionary party, which is made up of Cubans in the United States and elsewhere, while not disclaiming their responsibility in preparing the island for a rebellion for republican purposes and of lending help to a spontaneous revolutionary movement, has not been a party to the present uprising. It seems, in fact, that its name and authority have been shamefully abused, and the enthusiasm of honest Cubans treacherously availed of in order to serve the purpose of the Spanish political party, who are alone responsible for the trouble.

"By telegrams and cablegrams just arrived it is proved that a handful of honest Cubans were prompted to rebel against the express advice of the Republican party, by the pressing instigation of the Spaniards known in that province to be the most ardent defenders of the active military system. The result of the rebellion was local dismay, and it will doubtless teach the Spaniards the necessity of keeping the island under strict military rule.

"My cablegrams inform me that of those who have taken up arms at the town of Las Lajas, 18 men have surrendered, 10 have been captured and two killed.

A DEAD PRINCE.

Alexander of Battenberg Succumbs to the Inevitable.

GRATZ, Nov. 18.—Prince Alexander of Battenberg is dead. The prince has recently been suffering from peritonitis and inflammation of the bowels.

Prince Alexander Joseph of Battenberg, recently Prince of Bulgaria, was the son of Prince Alexander of Battenberg, Hesse, who died Dec. 15, 1888; was the brother of the late Empress of Russia, and was born April 5, 1857. Prince Alexander served in the Russian army during the war with Turkey; he was elected hereditary prince of Bulgaria April 20, 1879. The prince, by consenting to the union of the two Bulgarias, incurred the displeasure of the czar and his position became more and more difficult, until on Aug. 29, 1886, part of his army, instigated by Russian agents, it is said, revolted and forced him to sign his abdication. On Jan. 11, 1889, the prince took the name of "Comte de Hattenau," and in the month following married a celebrated actress, Fraulein Amalia Loisinger, and retired to his estate here.

NEED MORE ROOM.

The Ohio Penitentiary Is now Full With 2,000 Convicts.

COLUMBUS, O., Nov. 18.—The supreme court having held the habitual criminal law constitutional in every phase, the courts in all the counties are applying it with vigor.

The result is a large increase in the permanent population of the state prison.

Never in the history of the prison has the number of prisoners been so large at this time of the year.

Before the courts close for the year the number will pass the 2,000 mark, and a large portion will be of this habitual criminal or life class.

Though the Mansfield prison may be ready in part early in the year, it will not afford immediate relief here, as no labor contracts can be interfered with.

It now looks as though an addition would have to be built here at once.

AGAIN REFUSED.

The Roby Athletic Club Fails to Secure Incorporation Papers.

INDIANAPOLIS, Nov. 18.—T. E. Knott, representing the Roby Athletic club, again attempted to incorporate the club yesterday, but the secretary of state refused to issue a charter because the capital stock was not sufficient to carry on the operations proposed. The articles presented were almost the same as those refused a few days ago.

Knott in an interview late last night stated that he had expected to meet a refusal of articles and that the club had made arrangements to go ahead as if incorporated. They had done all in their power to comply with the laws and would now give exhibitions such as were in the bounds of the law. Governor Matthews says no prize fights shall be held.

Bank to Reopen.

MUNCIE, Ind., Nov. 18.—Last evening Mayor Brady, receiver of the Citizens' National bank, which closed its doors Aug. 4, returned the bank back to the directors at the request of Comptroller Eckels, who had been notified that the concern was in a condition to resume. William M. Marsh, cashier, who has been connected with the bank for 18 years resigned and will be succeeded by Charles M. Turner, late cashier of the First National of Sedan, Kan., also director of the Kansas National bank of Topeka, and a director of the Missouri Pacific railway and a member of the Kansas legislature for three years. The bank will open its doors Monday.

Theatrical Man Killed.

MORRISON, Ills., Nov. 18.—Charles Andrews, proprietor of the Andrews Opera company, traveling in their own private parlor car, met a horrible death here. Andrews stepped from one railroad track to another to avoid a west-bound freight train, when the east-bound Omaha express struck him, throwing him under the freight train, where his body was ground to pieces.

KNIGHTS OF LABOR.

The Fourth Days' Proceedings of the General Assembly.

THE LIVELIEST SESSION YET.

A Proposed Change in the Constitution by Which Delegates Shall Hereafter Be Elected by Popular Vote Instead of From Central Organizations as at Present.

PHILADELPHIA, Nov. 18.—The fourth day of the Knights of Labor general assembly was the liveliest yet. General Master Workman Powderly made a scathing denunciation of the methods of certain men in the order and a general denial of the charges made by Secretary Treasurer Hayes. He talked for a long time about the order and its future prospects.

Other members made things lively by declaring that the stories printed in two of the Philadelphia morning papers were lies, made out of the whole cloth. Their statements were challenged by several of the opposing faction, who said there was a great deal of truth in the stories. This debate was so long and so animated that the general master workmen did not start his speech until nearly 12 o'clock.

As usual, the meeting was held behind closed doors, and the reporters were referred to A. S. Worsley of Beavertown, Ky., editors of the Kentucky Industrialist and a member of the press committee. Mr. Worsley said the greater part of the time was taken up with the work of correcting the minutes of the past three days.

The only question of interest, in the opinion of the press committee, was a proposed change in the constitution by which delegates shall hereafter be elected by popular vote instead of from central organizations, as at present. The new plan is favored by many, but is opposed by some, and no action was taken upon it.

In the afternoon Master Workman Powderly resumed his address. He called to mind a number of alleged violations of rules by some of the delegates. He said very plainly some one was divulging the secret deliberations of the assembly both to individuals and newspapers, and recommended that measures be adopted by the delegates in person who were not guilty of any such violations, to endeavor to have the practice stopped. This created no little comment, and the usual protestations of innocence from all.

Mr. Powderly also denounced the charges made by Secretary-Treasurer Hayes as absolutely and unqualifiedly false. He said that there had been no misapplication of funds donated for the relief of the strikers at Homestead and that each and every act of the executive board was open to the inspection of the delegates to the general assembly. He explained where and how all the money said to have been misapplied was used. He then appealed to the general assembly, and asked if they were not satisfied with his explanation.

He intimated that charges and false reports were given to newspaper representatives by persons who had a grievance or fancied, against the members of the executive board, and in numerous terms denounced such proceedings as being unworthy of a knight and a gentleman.

On his views looking toward the amalgamation of the knights with kindred organizations, he elaborated quite extensively. He stated that he had the personal assurance from officials of several of the large labor organizations that they would take immediate steps to set the matter properly before their respective associations.

Populist Congressman Davis is authority for the statement that some action of general interest will be taken by the assembly. The committee on finance, he said, will make its report, in which not a little public interest has been manifested because of the alleged misapplication of funds.

THRILLING ACCIDENT.

Seven Men Narrowly Escape Instant Death.

HAZELTON, Pa., Nov. 18.—The Beaver Meadow branch of the Lehigh Valley railroad was yesterday the scene of a thrilling accident in which seven men narrowly escaped instant death. Foreman Eck, with six Hungarian laborers, boarded a handcar at Beaver Meadow intending to reach Hazel Creek before the express would leave there. The road is marked by a 2 per cent grade, with heavy curves skirting many deep ravines.

They were going at a lively rate of speed about half way down when the brake chain broke. The men immediately lost control of the truck, and like a flash it rushed down the mountain side. Afraid to jump, and realizing their danger, the men cried wildly for assistance. Many persons along the road watched them in helpless horror. Just as the curve above Hazel Creek was reached and on the edge of a high embankment, snap went the forward wheel and in an instant the truck with its freight was precipitated to the bottom of the bank, 300 feet below.

Andrew Konitz was taken from the wreck dead. Mike Mority was fatally injured. Foreman Eck sustained severe contusions on the body and head. Joe Taurenz had his legs broken and head cut. The other three men escaped with severe but not dangerous injuries.

Rich Discovery of Gold.

EL PASO, Tex., Nov. 18.—Rich gold finds are reported from the Organ mountains, 50 miles northwest from here. The stories coming in are so wonderful that within a few days a whole army of prospectors will leave for the Organ district.

SOUTHERN MANUFACTURERS

Appeal Publicly to the Democratic Party For Protection.

WASHINGTON, Nov. 18.—The southern manufacturers, who are protesting against the abolition of the duty on iron ore and coal, have issued a public statement appealing to the Democratic party for protection to the several hundred millions of dollars invested in manufacturing and mineral lands in the "New South" within the past 15 years. The delegation representing the southern manufacturers is now in the city.

The statement is an appeal to Democrats and to the manufacturers of the west and south for co-operation in resisting any legislation having for its object the placing of iron ore and coal on the free list contains a long argument against such propositions.

The following extracts from the statement will serve to give its purport:

"It is far more important to defend the money that has already been invested under the tariff on ore and coal than to attempt to build up the manufacture of iron in those parts of the country from which it was slowly passing by the operation of natural causes. The state of Michigan produces more iron ore today than all the states put together, omitting Minnesota, and if free iron ore is to be the issue, she will need to look to her supremacy. The southern iron men have resolved to resist the repeal, forgetting for the moment all differences of political belief, and mindful only of that better and more stable thing, to wit, domestic prosperity. Millions of dollars have been invested in the south in the mining of iron ore and coal on the supposition and a reasonable one too, that they would not be put in jeopardy in the house of their friends. If the duty is repealed and there should follow the erection of furnaces on the coast, as is now anticipated, what is to become of the investment already made? It is easy enough to say, after furnaces have been blown out and rolling mills closed down, that a mistake has been made, but that will not repair the wrong."

A PALACE FOR THE POOR.

Remarkable Philanthropy of a Wealthy Hawkeye.

WAVERLY, Ia., Nov. 18.—To the indigent people of Bremer county the prospects of a journey over the hills to the poorhouse will henceforth be robbed of many of its terrors for, through the beneficent generosity of Mr. Abraham Slimmer, those who are so unfortunate as to become public charges will dwell in marble halls.

Mr. Slimmer dropped into the county auditor's office Thursday night while the board of supervisors was in session, and pleasantly surprised that body by presenting them with a deed to his palatial mansion that overlooks the city from the west, and which, with the beautiful park surroundings, is valued at \$40,000.

The only condition of the transfer is that the dwelling shall be used exclusively as a home for poor people, and the donor takes upon himself to keep up the expenses of the establishment till his death.

Mr. Slimmer is the same gentleman who founded and endowed the home for aged Jews on the Drexel boulevard, in Chicago, and it is said that he has many other philanthropic projects in view.

GRABBED A TRAY OF DIAMONDS.

The Thief Captured and All but Two of the Stones Recovered.

PITTSBURGH, Nov. 18.—Three men entered the jewelry store of August Loeb of Federal street, Allegheny, about 12:30 Friday afternoon, and while two engaged the attention of the clerk, the third grabbed a tray from the window, on which were 24 diamonds, valued at \$6,000, and ran from the store. The alarm was given at once and the thief was chased to Montgomery avenue and captured. While running he tried to throw the tray into a sewer, but failed. All the diamonds but two were recovered. The thief was identified as Harry Schaffer of Chicago. His confederates escaped from the store during the excitement following the discovery of the robbery.

BIG IRON MINE DEAL.

Iron King Mine, Mesaba Range, Sold For \$400,000.

DULUTH, Nov. 18.—At Chicago the Chicago and Minnesota Ore company closed the purchase of the Iron King mine on the Mesaba range. The price is understood to be \$400,000 cash, or its equivalent. The Iron King is one of the largest of all the Mesaba range mines, having a developed ore body 3,000 feet long, 600 feet wide and known to be 230 feet deep, at least in part. The Chicago and Minnesota Ore company, purchaser, is a subsidiary of the Minnesota Iron company, which is a direct opponent of the Rockefeller-Merritt syndicate formed lately. Several other large sales of iron properties are now in progress.

The Grants in California.

SAN DIEGO, Cal., Nov. 18.—U. S. Grant, son of the late General Grant, has purchased what is conceded to be the finest residence in San Diego. His brother Jesse is also here and they state that San Diego will be their future permanent home. Mrs. U. S. Grant is now in Santa Barbara and will join her sons here in a few days.

May Come Out All Right.

MANSFIELD, O., Nov. 18.—Willis M. Sturges has been appointed receiver for the Danforth Lumber company, which went into the hands of the sheriff yesterday. The company's liabilities are \$17,000; assets (estimated), \$30,000. It is possible the company will be re-organized and continue business.

IN THE WHITE HOUSE

Cranks Invade the President's Residence.

PRECAUTIONS OF NO AVAIL.

The Upholstery Cut and Slashed and Furniture Destroyed—The Whole Affair Surrounded in Mystery—Cross Bones and Bloody Skulls—The Household Excited. No Telling What Will Happen Next.

WASHINGTON, Nov. 18.—In spite of all precautions that have been taken for protection of the president and to keep cranks away from the White House, the sacred precincts of the mansion have been entered in some mysterious manner, and the president's household is greatly excited. For many weeks past there has been a series of robberies of a mysterious and peculiar kind in Washington. The burglars have stolen but few things, but have at each visit destroyed a considerable amount of furniture, slashing pianos and chairs and cutting up table linen and clothing. Every effort to trace the criminals has failed.

Without any thought about business but solely for the protection of the president, the White House has been guarded by special detectives and policemen in addition to the regular watchmen, and every precaution has been taken to prevent any unauthorized person from entering the building. The east room only has been open to visitors.

No one has been permitted to enter there who looks suspicious, and those who have been permitted to examine the room have been in charge of watchmen. All other parts of the house have been closed to all visitors except on special occasions. Notwithstanding all these precautions it has been demonstrated that some one has entered without the knowledge of the guardians.

It has been discovered that some person or persons, possibly a crank, has entered the green room where visitors are not allowed except with a guard in attendance, and slashed the furniture with a knife. Great slashes in the form of a cross have been cut in the beautiful satin upholstery, and other acts of vandalism with no other object in view, or whether it was done by some crank as a warning or threat against the president is not known. The supposition is that the cutting of crosses in the furniture is intended as a threat such as a senders of bloodthirsty letters convey by crossbones and bloody skulls.

CHICAGO UNDER MARTIAL LAW.

The Police Trying to Suppress Crime in the Windy City.

CHICAGO, Nov. 18.—Beginning this morning at 1 o'clock the city was practically put under martial law. Chief of Police Brennan informed the inspectors that he intended to adopt rigid measures and that after 1 o'clock each night until such a time as the order is rescinded, he desired that half the force be put in citizens clothes and thrown upon the streets.

These men are to stop and question every individual found on the streets after that hour. If satisfactory answers are given the citizens will be allowed to go in peace. If their answers are not satisfactory to the police the men accosted will be taken to the police station. The measure is made necessary by the large number of highway robberies and sand baggings which have occurred of late.

BAD BLOOD EXISTED.

Fald Too Much Attention to His Neighbor's Wife.

NASHVILLE, Nov. 18.—Yesterday about 1 o'clock at the hotel in Franklin, Tenn., John R. Roberts, one of the leading dry goods merchants of the town, shot with a pistol and killed Charles Watson. Bad blood had existed between them for some months owing to the attentions which Watson was paying to Roberts' wife and yesterday it culminated in an attack upon Watson by Roberts.

Roberts struck Watson over the head with an axhandle. Watson drew his pistol and shot at Roberts three times, one shot taking effect in the thigh, inflicting a serious, but not dangerous wound. Roberts then drew his pistol and shot Watson in the back, and he died in five minutes.

Noted Criminal Hanged.

CHATTANOOGA, Nov. 18.—John Rutherford, one of the most noted criminals of Georgia, was hung at Trenton, near here, yesterday. He was one of the convicts who killed two guards in trying to escape at Cole City in 1891. This is the second man executed for this crime, and another is now on trial for his life. Rutherford was baptized just before the execution, and died game. Death was instantaneous. The execution was public, and was witnessed by 2,000 people, most of whom were women.

Negro Family Poisoned.

NASHVILLE, Nov. 18.—It has just been learned that a negro family living in this city were poisoned under very mysterious circumstances last Wednesday night, one death resulting so far. The family consisted of Sam Howard, wife, three daughters and his wife's sister. They are in a critical condition. Immediately after eating supper, prepared by the eldest daughter, they were all taken violently ill, with the above result.

CANTON, O., Nov. 18.—At Minerva crossing a collision occurred between the Cleveland, Canton and Southern and the Lake Erie, Alliance and Southern trains. Five persons were injured.

WEATHER FORECAST.

Light local showers followed by fair weather; possibly local snows at lake stations; colder northwest winds and a moderate cold wave by Sunday morning; the temperature will fall to about freezing.

At the recent election, forty-five voters at one of the polls in Carter County were sworn as to their inability to read and write. Of these, forty were Republicans and five Democrats. Democrats needn't hope to carry Carter as long as this State of affairs exists.

The wages of iron ore miners at Allenton, Pa., have again been reduced, and they are now working for 70 cents a day. The iron industry is one of the most highly protected under the McKinley bill. The mine owner and the mill-owner are the ones who reap the benefit of this legalized robbery, and Republicans believe in "protecting" them in such work.

THE INDUSTRIAL SOUTH.

The Manufacturers Record of Baltimore considers the outlook bright. It says that during the week ending November 17 there has been considerable increased activity in the industrial world of the Southern States. Many ore mines are resuming work. Several furnaces are preparing to go into blast and factories generally are working on full time. Municipal improvements, water works especially, are being projected in a number of cities. In fact the outlook generally is for a renewed activity, to be followed during the coming year by a substantial progress not hitherto attained. The past week has seen the accession of many new and important enterprises in addition to the already large list for the year. The Record gives a list of the new enterprises each week, together with the industrial news of importance.

Maysville should bestir herself and go to the front in the onward march. She has been lagging in the rear long enough.

PERSONAL.

Mr. A. M. J. Cochran was in Ashland Thursday on business.

Miss Anna Darnall is the guest of Miss Anna Scudder, of Carlisle.

Mrs. T. Y. Nesbitt has been visiting the family of Rev. James P. Hendrick, of Flemingsburg.

Rev. Dr. Scudder, of Carlisle, was in Maysville yesterday en route home from Terre Haute, Ind.

Mrs. A. Finch and family are at home, after spending the summer with her father near Mayslick.

Dr. Edward Johnson and mother, Mrs. G. W. Johnson, of Pittsburg, are guests of Captain M. C. Hutchins and family.

Miss Maggie Greer and Mrs. B. Richer, of Cynthiana, Ky., are visiting Mr. and Mrs. George F. Brown, of East Third street.

Mr. George Peabody Griffith, who has been visiting in the county for two weeks, left yesterday for his home in New York City.

Northup and Hagar.

Says the Catlettsburg Democrat: "A prominent Democrat of this city informs us that Colonel Jay H. Northup, of Louisiana, told him one day that he would be a candidate for Congress next fall. We are also authorized to say that Boyd County will have a candidate, providence not interfering. It looks as though the contest in this district next fall will be a free-for-all dash, for the Congressional purse."

ARCHIE GRIMES, son of Dr. Grimes, of Concord, is very ill at Baltimore where he is attending school.

THANKSGIVING.

Governor Brown Issues His Proclamation—A Letter From Bishop Maes on the Subject.

In his Thanksgiving proclamation, issued Thursday, Governor Brown says:

"In observance of a long-established custom, I recommend that Thursday, the 30th day of November, be set apart as a day of Thanksgiving and prayer by all the citizens of our beloved Commonwealth. Let thanks be offered our Heavenly Father for abundant blessings and great mercies; let us comfort the afflicted; bestow gifts on the poor, and show kindness to all strangers within our gates."

The following letter will be read in all the Catholic churches of this diocese tomorrow:

"In accordance with time-honored Christian custom, the President of the United States has set apart the 30th day of the present month as a day of thanksgiving and praise to God for his many blessings upon this favored land."

"We hail the religious acknowledgement of our Chief Magistrate to the giver of all good gifts as a fitting return of the American nation for the peace and prosperity with which God has blessed us, and we consecrate the selected day to religious worship, to honest enjoyment and to deeds of charity and benevolence."

"We, therefore, direct that on Thursday, November 30, 1893, the holy sacrifices of the mass be celebrated with appropriate solemnity at an hour which will enable all your people to attend. It shall be followed by Benediction of the Most Holy Sacrament and the Te Deum."

"May the divine victim of propitiation, the Lord Jesus Christ, continue to bless this land of promise and of freedom, and all the inhabitants thereof, and keep them all in the spirit of religion, charity and peace, which has proved its glory in the past and will secure its lasting prosperity for the future."

Pork Packing.

The movement of hogs is enlarging moderately, but still short of corresponding time last year. Returns and estimates for the week indicate the total packing in the West as 240,000, compared with 205,000 the preceding week, and 300,000 for corresponding period last year. The total from November 1 is approximately 445,000 hogs, compared with 525,000 a year ago. Prices of hogs have had some tendency to lower values, but not to the extent which packers have hoped for, and some of the larger winter concerns still remain out of the market, while others are operating on a restricted scale.

The position of values is not regarded as a safe one, and unless there is a decided further reduction in price of hogs it is likely that many houses accustomed to operating in the winter season will continue to wait, or not open at all. It is not so much the fear of an excessive number of hogs during the winter months as the apprehension that the enlargement in the spring and summer months will be equal to producing unprofitable markets for the surplus winter product which must necessarily be carried forward.—Price Current, November 16.

For the Farmer.

Agriculture maintains 23,010,000 Americans.

Mr. Chas. Clarke, of Bourbon, threshed out his crop of about 2,000 bushels of wheat last week, and sold same to the Paris Milling Company for 55 cents per bushel, on the cars.

A horseman says that whenever a horse driven by him has balked, he has gone to the horse's fore foot, lifted it up from the ground and struck the shoe a few blows with a stone. He has never failed to start a horse in this very simple way.

Carlisle Mercury: "The mysterious disease among the cattle in Bourbon and Fayette counties, it is feared by the farmers and veterinarians, will destroy many valuable animals, in addition to those that have already fallen before the plague. It is now thought that the disease is contagious."

Cost of Collections in This District.

The total expenses of collecting the revenue of the Seventh district of Kentucky for the fiscal year ending June 30, 1893, was \$122,835. The total collections for that period amounted to \$3,488,405.68, exceeding by half a million dollars the collections in this district of any preceding year. The cost of collecting this immense sum was a fraction over 4 per cent. For the past year the compensation of Storekeepers employed in the district amounted \$68,591.50, and of the Gaugers to \$26,571.53.

The C. and O.'s New Schedule.

The C. and O.'s new time-table goes into effect to-morrow at 6:30 a. m. The most important change is in the schedule of the Maysville accommodation trains Nos. 19 and 20. Under the new table, No. 19 will leave here at 5:30 a. m. and arrive at Cincinnati at 7:45 a. m. No. 20 will leave Cincinnati, (Fourth Street Station), at 6:15 p. m. and arrive at Maysville at 7:45 p. m. See time-table elsewhere.

Is Life Worth Living?

That depends upon the Liver. If the Liver is inactive the whole system is out of order—the breath is bad, digestion poor, head dull or aching, energy and hopefulness gone, the spirit is depressed, a heavy weight exists after eating, with general despondency and the blues. The Liver is the housekeeper of the health; and a harmless, simple remedy that acts like Nature, does not constipate afterwards or require constant taking, does not interfere with business or pleasure during its use, makes Simmons Liver Regulator a medical perfection.

THE FINEST TRAIN IN AMERICA

Is Conceded to be the Southwestern Limited Via Big Four Route to New York.

This magnificent Wagner train has been built especially for service between Cincinnati, New York and Boston, running through solid to these cities without change of cars. Composed of elegant coaches, Wagner sleeping cars, library and cafe car and hotel dining car it has become famous. Complete in all of its appointments it is to-day the "king of the road."

It leaves Cincinnati at 6 p. m. daily from Central Union Station, making connections with all through trains from the South, and lands passengers in New York City at Grand Central Station, avoiding ferry transfer.

When you go East take this train. D. B. Martin, General Passenger and Ticket Agent. E. O. McCormick, Passenger Traffic Manager.

IDENTIFIED.

The Floater Found Wednesday Was Newton Debell, of Mt. Carmel.

He Disappeared Three Weeks Ago. His Death Shrouded in Mystery.

The unfortunate found in the river at Bull Creek last Wednesday evening has at last been identified.

The body is that of Newton Debell, whose mysterious disappearance from his home at Mt. Carmel about three weeks ago has been mentioned several times in the BULLETIN.

It was stated in the BULLETIN yesterday that the remains might be those of the missing Mt. Carmel man, and this morning Mr. Louis Goepke, who was intimately acquainted with Debell, came in from Carmel, and set at rest all questions on this point. Debell had been in Mr. Goepke's employ, and carried the keys to his barn and warehouse when he disappeared. These keys are the ones found in the pockets of deceased when the body was searched last Thursday. Mr. Goepke has fully identified them.

Debell left home one morning about three weeks ago. He was afterwards noticed about four miles from the Ohio, making his way towards the river. That was the last seen or heard of him alive, so far as known.

Just where he met his death remains as deep a mystery as ever. The wound on his face leaves but little, if any, doubt that he was murdered. The officers should leave nothing undone to solve the mystery surrounding the case. If he was murdered his slayer or slayers should be brought to justice.

Debell was a bachelor, and was about fifty years of age. He has a brother, Wm. Debell, living at Carlisle, and a sister, Miss Francis Debell, of Sedalia, Mo. They were notified by telegram this morning of his death, and the burial will not take place until they arrive.

WANTED—Laborers. Men who can and will work; plenty positions for all who apply. Place to apply, Y. M. C. A. hall to-morrow afternoon at 3 o'clock sharp. While the workmen are applying an orchestra will discourse sweet music and soul-searching gospel hymns will be sung. All men, boys and strangers are invited. You owe it to yourself, you owe it to your companions to come out. Nothing you can do will so handsomely pay you. You who have enlisted under the cross of Christ come out and bring some one with you.

HERE is another new swindle which is being worked in some parts of the country: A stranger calls upon a farmer who resides on a public highway and contracts with him for alleged privilege of posting show bills on his barn or outbuildings convenient to the road. He pays the farmer \$2 in advance for the privilege, and requires him to sign a receipt for the same. The receipt shows up in a short time as a note for \$200, bearing the signature of the farmer. Watch out for him and meet him with a shotgun, is the advice of an exchange.

FLEMING'S PROHIBITION LAW.

Important Ruling by the Court of Appeals Concerning the Sale of Liquor.

The Court of Appeals has rendered an opinion in the case of the Commonwealth versus Day, which, though based on an act regulating the sale of liquor in Fleming County, is, nevertheless, important in its rulings to the whole State.

Without going into the facts of the case, the court in its mandate says:

First—The distiller can not fill the physician's prescription, much less could he sell without it or dispose his product otherwise than is permitted by the act.

Second—No other person than the physician or druggist can sell, barter, give, loan or traffic in such liquors in any quantity whatever, with or without a prescription.

Third—Nor can a person by importation or otherwise as agent or servant, or as a "go-between," procure for or deliver to another such liquors to be used as a beverage, though such persons may with a prescription prescribed in good faith by a physician procure such liquors from the physician or druggist, to be used as a medicine. The sick man need not go after the liquor in person.

Fourth—Each sale or procurement must be accompanied by the distinct prescription, and a person can not obtain such liquors from a druggist or physician on a prescription indefinite as to quantity so general as to cover future deliveries.

The court added: "If some of the features of the act seem harsh or arbitrary it is to be remembered that the way to kill a law is to enforce it."

The Turkey's Fate.

Now doth the festive turkey
Hold high his haughty head.
He knows not what is coming,
Nor why he's so well fed.
He's happy in his ignorance,
Of this and other facts.
But pretty soon he'll get it
When the chicken got the ax.

West; Crittenden, Miss Mina Wheeler; Christian, Miss Katie McDaniel.

THE fight over the estate of the late Thomas Blythe, a California millionaire, is not settled yet. The Kentucky Blythes want a new trial, and the transcript in the case comprises over 1600 pages of printed matter. They assert that Florence Blythe, the successful claimant, is the daughter of Joe Ashcraft, who married the mother subsequent to Florence's birth, and had several other children by her.

COLONEL J. B. FLEMING, ex-Maysvillian, now of Pleasant Valley Mills, writes as follows to the Fleming Times-Democrat: "I see in your paper of November 10, that some one in Jefferson City, Mo., has an ear of corn that contains 1,050 grains. Please say that I have one ear, 74 inches long, that has 1,082. Also one 10 inches long that contains 1,150 well formed grains. The one 74 inches long has 26 rows on its cob."

ALLEGED ROBBERY.

That Is What the Detectives Call the Recent Chicago Sensation.

CHICAGO, Nov. 18.—The police tell a queer story in regard to the \$20,000 robbery of Treasurer Drake of the Indiana, Illinois and Iowa railroad. City Detective Plankett said: "While I was questioning Mr. Drake he suddenly grew angry and said that he did not see why the city police took so much interest in the robbery. He also went on to tell us that he thought it did not concern the police at large, and that the matter might as well be dropped as the loss fell on the 'Three I's' road and only affected his father and himself. The case, I understand, has been turned over to the Pinkertons by General F. M. Drake."

Detective Conway, after making a thorough examination of the floor of the railroad office in front of the safe where the robbery occurred, says he finds no marks of a scuffle. The floor is of polished hard wood, and he sees no reason why it should not be scuffed by the slipping effect in a struggle. Other city detectives say that a man can inject cocaine into a part of his body and deaden the sensibility of it to such a degree as not to feel the painful effect of heavy blows of a club or other instrument administered by himself or others hired for the purpose, and that they have known this to be done in several cases that have come under their observation. The police are now largely devoting their attention to tracing up several of the stories regarding young Drake's past.

"The police depart is not to be misled in a case of this kind, and we shall not cease work on this alleged robbery until it has been established that actual robbers did this job or not," said Assistant Superintendent Kipley. "No outside influence can call the police off the case. It is our duty to find out whether sandbaggers are really holding up citizens in their offices in the heart of the city in broad daylight. The fact that the loser does not care to prosecute the search makes no difference with our duty. Everybody is interested in knowing if such a crime was committed and the paid police must find out. We are not a private agency employed at so much a day to prove certain things."

AWAITING THE NEXT STEAMER.

Government Officials Expect Some Important News From Hawaii.

WASHINGTON, Nov. 18.—The expected arrival at any moment of the next steamer from Hawaii, the Australia, has had the effect of decreasing to the lowest point the amount of speculation and surmise which has been prevalent regarding the Hawaiian question.

Officials of the state department as well as the public at large, feel that this steamer will bring messages to the United States authorities and the representatives of the provisional government of the Hawaiian islands which might controvert all the speculations that might have been indulged in and bring definite information of the situation at Honolulu. Under these circumstances there is absolutely no news and it is doubtful whether there will be any until the arrival of the steamer at San Francisco.

Secretary Gresham said to an Associated Press representative that there was to be nothing further given to the press. This disposes of the prevalent rumors that Blount's report is to be made public. It is now said that this report is not to be given out because there is nothing in it that has not already been published in substance.

Held on Moonshiners.

BIRMINGHAM, Ala., Nov. 18.—A posse of deputy marshals made a raid on the moonshiners in Randolph county last night, destroying two large stills and capturing John Fuller and Herman Hix, notorious moonshiners. While on the way to jail with the prisoners the officers were attacked near Christian by a party of friends of the prisoners concealed in ambush, who attempted to rescue them. The rescuers opened fire on the officers and a desperate battle followed. Andrew Howell, one of the rescuers, was killed and two others fatally wounded. The officers were unhurt.

Train Robber Gives Himself Up.

MASON CITY, Ia., Nov. 18.—An unknown man last night gave himself up to the authorities of Kossuth as being implicated in the Kessler (Ind.) Lake Shore train robbery. He says he will tell the whole story and give the names of those implicated at the proper time.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Complete Manhood and how to attain it.

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years; 96 pages every page bearing a half-tone illustration in tints. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would atone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal. Address the publishers, Erie Medical Co., Buffalo, N. Y.

CASTORIA

for Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."

CARLOS MARTIN, D. D., New York City.

"Castoria cures Colic, Constipation, Sour Stomach, Diarrhoea, Eruption, Kills Worms, gives sleep, and promotes digestion, Without injurious medication."

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results."
